

The Parisian Planter was born with a unique function, the legs keep the container off the ground so you can wash below, just like the planters in the streets of Paris. Made from solid stainless steel it will never chip, crack or break from freezing temperatures or powerful roots. With optional copper plating this piece ages beautifully and develops a unique patina. This planter box is also available in any size and finish, it will hold large trees to a single rose you dictate the size and shape you want.

- Material
304, 316 stainless steel or selected alloy
- Finish options
Brushed, Electro polish, Copper, powder coat and other custom options are available
- Fire Urn
Convert this planter into a fire feature that can be controlled by pool/ home control system.
